ET-620

The ET-620 is a tracked trommel designed specifically to meet the needs of the global market. The ET-620 has been designed to meet the needs of operators dealing in wood waste, compost, Light C&D waste and general MSW.

The interchangeable drum is removable from the side of the machine via a side opening door and retractable feed conveyor. The machine has been designed to accept screening drums from other manufactures allowing the ET-620 to be effortlessly intergarted into existing fleets . There is an intelligent control system designed to optimize throughput without causing stalling or slowing of the drum screen.
