S-200

The McCloskey ES-200 is a primary shredder for operations that require high capacity, durability, and the ability to process tough, bulky materials. ES-200 provides a cost-effective solution to reduce, shred, and process waste materials with ease.

It features a robust table design with different, easy to change shaft and breaker bar configurations so we can tailor a shredding solution for any application.

The shredder features a tipping hopper design which improves the machines processing efficiency. Its compact design makes it ideal for front end size reduction in waste processing facilities.

FEATURES

- Aggressive 9-5-5 shaft configuration
- Intelligent control system
- Variable speed main conveyor
- 4 Meter tracks for superior manoeuvrability and stability
- Volvo D11 315kW (428HP) Stage V/Tier 4 Final
*CAT engine option available
- Fuel-efficient hydraulics system
- User-friendly hydraulic controls
- Double hydrostatic drive transmission

McCloskey Environmental

- Aggressive 2m, 9-5-5 Knife heavy duty cutting table, with variable speed main conveyor

- Modular combs and breaker bar installation

- Hydraulic tipping hopper, maximising capacity and throughput

- Overband dipole magnet option

- 1200mm wide Conveyor featuring a Chevron belt and variable speed control

- Drop out conveyor system with quick release hydraulics, giving full service access to cutting table

- Auto greasing system

- GRP doors for full side access to chamber

- Intelligent control system with 12" DSE Display

- CAT & Volvo engine options available

DIMENSIONS AND CAPACITIES

TRANSPORT HEIGHT	3.38m (11'-1")	AVERAGE FUEL CONSUMPTION	35 L/HOUR (9.24 US GAL)	WORKING MAX HEIGHT	4.84m (15'-10")
TRANSPORT LENGTH	8.77m (28'-9")	WEIGHT	26,000kg (57,320 lbs.)	STOCKPILE HEIGHT	3589mm (11' - 9")
TRANSPORT WIDTH	2.65m (8'-8")	WORKING MAX LENGTH	11.05m (36'-3")
